On October 21st 2013, ActiveEon team has a great pleasure to announce
a ProActive comprehensive new trial platform, try.activeeon.com.

You will be able to connect to our ProActive Cloud platform and try it with a free **2 000 Hours credit**:

- It's **live** on http://try.activeeon.com
- It's **free**, just sign up and you will receive your credentials
- It's **online**, nothing to install to test ProActive

On http://try.activeeon.com, you will find several tutorials that cover the basics of ProActive Parallel Suite.

Build your workflows with *ProActive Studio*

- Intuitive user interface
- Drag & drop tasks, set dependencies, parallelism and flow control
- Fault-tolerance, placement constraints, data dependencies
- New: Try our ProActive Web Studio (beta)

BUILD

http://try.activeeon.com/studio

Run your jobs with *ProActive Orchestration*

- Easy-to-use multi-users web interface
- Submit and control your jobs
- Get accounting statistics

RUN

http://try.activeeon.com/scheduler

Deploy your workload with *ProActive Cloud & Grid IaaS*

- Aggregate your resources: from desktops to clusters and clouds
- Cross-platform compatibility: Windows, Linux, MacOS
- Add and remove resources dynamically
- Monitor all your resources: CPU usage, memory, processes, etc.

DEPLOY

http://try.activeeon.com/rm

Enjoy and do not hesitate to try it and to leave your feedback!
